

Monsanto Replant Program: The ULTIMATE in Crop Replant Flexibility

- Unmatched flexibility across Monsanto seed brands
- Trait and germplasm investment protection—even if you replant with a different qualifying crop
- Choose from eligible Asgrow®, DEKALB® and Deltapine® seed

Here's how the Monsanto Replant Program works:

1. Trait Replant Refund – If you replant an eligible crop containing a Monsanto trait to another eligible Monsanto trait crop, you get replant protection on your initial trait investment through the Roundup Rewards® Program.

2. Seed Replant Protection – If you plant an eligible Asgrow, DEKALB or Deltapine seed and replant to another eligible Asgrow, DEKALB or Deltapine seed, you get replant protection on your second crop's seed germplasm investment.

Monsanto Replant Program Trait and Germplasm Investment Protection by Crop:

Cotton

Crop 1 Trait Replant Refund

100% technology fee on Roundup Ready®, Genuity™ Roundup Ready® Flex, Bollgard®, Genuity™ Bollgard II®

Crop 2 Seed Replant Protection*

100% of grower purchase price of Deltapine germplasm

Asgrow® Roundup Ready® Soybean

Crop 1 Trait Replant Refund**

Crop 2 Seed Replant Protection

\$27.00/bag of Asgrow germplasm

DEKALB Sorghum

Crop 1 Trait Replant Refund

Does not qualify as no trait planted

Crop 2 Seed Replant Protection

50% of suggested retail price of DEKALB germplasm

Corn

Crop 1 Trait Replant Refund**

YieldGard VT Triple®

Genuity™ VT Triple PRO™

YieldGard® Plus with Roundup Ready Corn 2

YieldGard VT Rootworm/RR2®

YieldGard Rootworm with Roundup Ready Corn 2

YieldGard Corn Borer with Roundup Ready Corn 2

YieldGard Plus

Roundup Ready Corn 2

YieldGard Rootworm

YieldGard Corn Borer

Crop 2 Seed Replant Protection

50% of suggested retail price of DEKALB germplasm

* Deltapine germplasm replant not available in California, Nevada and Arizona.

** See Roundup Rewards Program brochure and regional refund summary flier for your trait refund amount.

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed set forth in the Monsanto Technology Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements.

Monsanto Company is a member of Excellence Through Stewardship® (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. This product has been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Biotechnology Industry Organization.

B.t. products may not yet be registered in all states. Check with your Monsanto representative for the registration status in your state.

Cottonseed containing Monsanto traits may not be exported for the purpose of planting without a license from Monsanto.

Roundup Rewards® applies only to Roundup® branded and other agricultural herbicides specified by Monsanto. Program details referenced in this publication are subject to change and should be verified by checking with your local Monsanto dealer or representative.

Growers may utilize the natural refuge option for varieties containing the Bollgard II® trait in the following states: AL, AR, FL, GA, KS, KY, LA, MD, MS, MO, NC, OK, SC, TN, VA, and most of Texas (excluding the Texas counties of Brewster, Crane, Crockett, Culberson, El Paso, Hudspeth, Jeff Davis, Loving, Pecos, Presidio, Reeves, Terrell, Val Verde, Ward and Winkler). The natural refuge option does not apply to **Bollgard II** cotton grown in areas where pink bollworm is a pest, including CA, AZ, NM, and the above listed Texas counties. It also remains the case that **Bollgard®** and **Bollgard II** cotton cannot be planted south of Highway 60 in Florida, and that **Bollgard** cotton cannot be planted in certain other counties in the Texas panhandle. Refer to the Technology Use Guide and IRM Guide for additional information regarding Bollgard II, Bollgard, natural refuge and EPA-mandated geographical restrictions on the planting of Bt cotton. **ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.** Roundup Ready® crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup® brand agricultural

herbicides. Roundup® brand agricultural herbicides will kill crops that are not tolerant to glyphosate. **IMPORTANT: Grain Marketing and Seed Availability:** Genuity™ VT Triple PRO™ has received the necessary approvals in the United States, however, as of August 6, 2009, approvals have not been received in all major corn export markets. Genuity™ VT Triple PRO™ seed will only be available as part of a commercial demonstration program that includes grain marketing stewardship requirements. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Consult with your seed representative for current stewardship information. Asgrow®, Asgrow and the A Design®, Bollgard®, Bollgard II®, Genuity™, Genuity and Design™, Genuity Icons, Respect the Refuge and Cotton Design®, Roundup®, Roundup Ready®, Roundup Rewards®, VT Triple PRO™, YieldGard®, YieldGard VT®, YieldGard VT Rootworm/RR2®, and YieldGard VT Triple® are trademarks of Monsanto Technology LLC.
